

High quality insourcing:
that puts patient safety first

www.lclinical.co.uk

Insourcing

Our insourcing services boost NHS clinical capacity across a wide range of specialities

We reduce waiting lists, alleviate pressure on busy NHS teams and treat patients quicker.

Outcomes you can rely on:

- Robust clinical governance structure ensures high quality, safe care
- Dedicated service delivery team and point of contact
- Fast contract mobilisation times - usually within 2 weeks
- A reduction in NHS outpatient wait lists
- Shorter wait times for patients
- Support to validate wait lists, triage and book patients
- Training and accreditation opportunities for NHS staff
- A wide clinical criteria treating complex cases, wherever possible
- Exceptional patient feedback

NHS
Shared Business Services

1Pathway
support

Pathway support - every step of the way

From referral to post op, our end to end pathway support services use innovative technology to help your Trust tackle its outpatient backlog.

1 **Wait list validation**

Intelligent, accurate wait list validation to verify and prioritise your patient backlogs.

2 **Booking support / automation**

Dedicated teams and innovative automation software to book and manage clinical appointments.

3 **Virtual out patients**

Efficient, flexible virtual outpatients appointments, increasing capacity and delivering convenient care.

4 **Tele-radiology**

Forward thinking digital service allowing our radiologists to remotely interpret x-rays, CT scans and MRIs for faster diagnosis and treatment.

5 **Tele - dermatology**

Harnessing the power of our most innovative patient platform to triage, diagnose, monitor and assess skin conditions remotely.

6 **Virtual pre - op**

Clinician led online pre-op appointments to save valuable time and resources.

7 **Coding support**

Digital platform to streamline operation notes for surgeons, auto capturing surgery data, to improve hospitals reimbursement via OPCS coding.

Team

1 Clinical - 1 Team

We are a team with one vision:
To support the NHS to treat more patients.

We do this by providing insourcing and pathway support to help Trusts to manage and reduce wait lists.

We put patient safety first, above everything else. We operate with full transparency and we are proud of our culture of continual learning and improvement.

We know that our key strength is our people power: we value and support our team, clinical contractors and partners.

What does that mean for our NHS partners?

We are problem solvers. We agree on outcomes from the word go and we deliver them. Our NHS partners can expect:

- A dedicated service delivery team and point of contact
- Fast contract mobilisation times - usually within 2 weeks
- A reduction in NHS outpatient wait lists
- Shorter wait times for patients

- Support to validate wait lists, triage and book patients
- Training and accreditation opportunities for NHS staff
- A wide clinical criteria - in short, we don't cherry pick patients and will treat complex cases wherever possible
